Bondowoso, East Java | +6285604982258 | fthanmaul@gmail.com | [LinkedIn](#) | [Github](#) | [Portfolio](#)

Summary

Software Engineer with 1 year of professional experience building production systems: a multi-module ERP, a B2B marketplace, and a real-time capsule hotel management platform. Backend-leaning, working with Golang (Clean Architecture) and Laravel, and shipping Next.js/TypeScript frontends. Graduated with a 3.91/4.0 GPA in Informatics Engineering.

Technical Skills

Backend	: Golang, PHP, Laravel, REST API design, Clean Architecture
Frontend	: Next.js, TypeScript, JavaScript, Tailwind CSS, TanStack Query, Blade, PWA
Database	: MySQL, PostgreSQL
DevOps & Tools	: Docker, Jenkins (CI/CD), Git, Linux

Work Experience

Full Stack Web Developer

Oct 2025 - Present

PT. Xeno Persada Teknologi

On Site

Dreampod, Capsule Hotel Management Platform (Jul 2026 - Present)

- Built a capsule hotel management platform covering booking, front desk, and real-time pod operations, designed to scale from a single pod to multiple pods and locations
- Designed Golang REST APIs using Clean Architecture, keeping business logic separated from delivery and data layers
- Integrated iFortepay Payment Service for online payments
- Delivered a Next.js PWA with TypeScript, TanStack Query, and Tailwind CSS

B2B Marketplace, Electronics and IT Solutions Provider (Jan 2026 - Jul 2026)

- Implemented a comprehensive master data management module for administrators, allowing efficient management of core business data
- Designed and implemented backend APIs to deliver data efficiently for frontend applications
- Maintained Jenkins pipelines for application build and deployment

Enterprise Resource Planning (ERP) Platform (Oct 2025 - Jul 2026)

- Enhance and extended 8 ERP transaction modules for an industrial supply and distribution company
- Delivered 10 new features from business requirements, working with team
- Resolved functional issues and optimized existing transaction processes, improving system stability and user experience

Full Stack Web Developer - Internship

Sept 2024 - Feb 2025

CV. Nusantara Tama

On Site

ENEWS INDO, Online News Portal (Dec 2024 - Feb 2025)

- Developed a monolithic news portal for a network of regional news sites across East Java, styled with Tailwind CSS.
- Built a featured-news page that renders news as shareable poster images (PNG).

SIM BPHTB, Land and Building Acquisition Tax System for a Local Government (Oct 2024 - Dec 2024)

- Built a web-based tax management system that digitizes the BPHTB submission, verification, and payment process, using Laravel and Blade.
- Improved the system over its legacy version by modernizing the technology stack, strengthening security, and redesigning the UI/UX.

Educations

State Polytechnic Of Jember

August 2021 - June 2025

Informatics Engineering

- GPA: 3.91/4.0
- Bachelor of Applied Computer Science
- Final Projects : Anime Recommender System using Content-based Filtering with Cosine Similarity
